Good Morning Don. I just received notification from Gary Spinella that you made a decision to move your floorplan in early 2007 to Wells Fargo. As we previously discussed I believe that GMAC has value (products and people) and we can more than offset and reduction in interest you may pay. In reading Gary's note it seems that recent event between you and GM have accelerated this move and that is most unfortunate to us folks at GMAC. I wanted to make sure you understand that with GMAC being sold on November 30 ,2006 to Cerberus Capital Management many good things are coming in 2007. Therefore, I respectfully ask if you and I can talk either in person or via phone one last time before this happens in January 2007.

I am available via phone (office 916-██████████ or (cell 916-██████████)).

Thanks,
