Frank Liebzoff returned my call. Said he got <sup>copy of</sup> my letter to Murty. I told him Henderson called me, indicated a possible way to go if capitalization fixed. Frank said if Buick would help, he + Kitzmiller would go to home office + insist that Cad help, too.

I told him I received ~~my~~ his letter. He said he had to respond to my letter, but understood + sympathized with my efforts. I told him my understanding of 3/9 mtg was that <sup>Cad</sup> it would come in my place either way. He said Cad wouldn't go for it.

I told him rather than get into detail of what had been said, I would just put deal together then discuss it. I told him the hell I was going through. He said he knew that, esp. compared to Moran + DeCunzio.
