Chris Wolff called 5/24 5:00, I was on phone, tried to return call. I returned call 5/25 morning, Chris said he would like to come over + talk to me. He and Mary Kay Long came over approx 10:15. Chris told me that he had gotten "vibration" that the corp. might help me (+ other drs) finance auto mall bldgs. I said "great", how do we capitalize? He said nothing we could do, and to keep pursuing MHD + other sources of \$. I asked why the change in thinking, was it because Olds + Post now out? He said maybe, but they do consider this an important point. I asked him if he had talked to Sebott this week. He said he had, but on another matter. I told him about my conversation w/ him, that had it not been for Cahillae, I would have done something different a year + a half ago rather than keep losing \$ + working 7 days a week. (Chris had told me early in the conversation ~~to~~ to just "hold on" because GM help might

be on the way. He appeared concerned that I might do something drastic.)

On Monday, 5/21, somebody from GMAAC had called Jim Walter to find out status of Auto Mall. (Walter told me at 5/23 meeting)

5/24 Bruce Gibson had been in 5/24, I told him about conversation w/ Liebgott. I told him if I had to shut down I didn't know if I may have to see a lawyer about ~~the~~ no Cadillac.

5/25 Afternoon - I called Liebgott, told him of conversation w/ Chris in morning. I asked if he had talked to Chris, he said no but he had a msg to call him. I asked if he had heard about Cad now, he said no.
